"At the Sign of the Dog"

## E. W. BENNETT GOES INTO TRAILER CONCERN

E. W. Bennett, who for several years past has been one of the managing directors of the Bennett Lumber company of this city, has gone into business in Los Angeles and will make his home in that city. In a recent issue of the Los Angeles Examiner referred to his new departure as follows:

"Announcement was made last week by the Los Angeles Trailer company, Inc., that its organization had been strengthened by the addition of E. W. Bennett, who assumes the position of treasurer and general manager of the corporation. Mr. Bennett was formerly associated with the Bennett Lumber company of Phoenix, Ariz., and is well known in commercial circles. In an interview Mr. Bennett said:

"It is only a year and a half ago that the Los Angeles Trailer company came into existence and in that time it has twice had to move to larger quarters in order to have adequate manufacturing facilities. We are now doubling our production capacity, and our trailers are not only being sold in Southern California, but in every large center west of the Mississippi river, and south of the Canadian line there is a Los Angeles Trailer company distributor. At the present time eight salesmen are working the territory directly out of our local headquarters. Our export shipment of trailers are going to the Hawaiian and Philippine Islands, China, and South America.

Mr. Bennett has been known as one of the most progressive young business men in Arizona, and his many friends feel that the company in which he has purchased an interest is to be congratulated on securing the services of such a hustling, likeable all-around "truster." It seems that about a year ago the Bennett Lumber company bought one of the Utility trailers for use in their delivery business and that it was so satisfactory that they recommended it strongly to other concerns here, and later secured the local distributing agency for it for the Paul Bennett Auto Supply company of this city.

Becoming greatly interested in the unusual sales possibilities offered by the line, Bennett finally made an investigation of the company, with the result that as stated he has become heavily interested in the concern.

## NOTED AUTO MAN TO JOIN GEORGE REUBEN

There are a good many experienced automobile salesmen in Arizona, but it is doubtful if there is a single one whose work and training has been more varied or desirable than that of A. B. Smith, who has just come here to share with George H. Reuben in the work of distributing Kissel Kars in this territory.

Mr. Smith has been well acquainted with Arizona conditions for several years, especially during his recent four years' connection with the Pacific coast branch of the Kissel company. It was largely the result of Smith's work that George H. Reuben became the state distributor for Kissel Kars last season and he is now showing the best possible indication of his good faith, in coming here to go into the retail business with his same old line. Not only is Smith a successful automobile salesman, both to the general public and to the trade, but he has had a great deal of service work and machine shop experience. Although a young man, this is his fourteenth year in the automobile business. During this time he has specialized on service work for such famous old lines as the Alco, Marquette, Welch, Durocars and Tourist lines.

In speaking of cars yesterday Smith said: "I've had several years' experience in the automobile business, starting after I had thoroughly learned the mechanics' trade, and have had an excellent opportunity to observe practically all makes of machines. Of them all, I think there is none superior to the Kissel Hundred Point Six, which

## The Great Home Event of The Season

## DORRIS-HEYMAN FURNITURE COMPANY

PHOENIX, ARIZONA

is considered the marvel machine among autoists of the coast, and when it comes to upkeep and low operating cost, I do not think the Kissel is equaled in its class. After four years' connection with the Kissel branches on the coast and an experience of several years with cars of other makes, the fact I am investing money in Kissels at this time shows that I believe what I say about them."

### Base Hits from the Tri-Copper League

BY BOB GIBSON  
After playing two fine games the Millers dropped back to their old habit of kicking games at several. Enough errors were made in the one-game to lose a dozen games, every man on the club with the exception of Galena, Rose and pitcher Fontress was guilty of at least one glaring mishap.

The Smelter by their defeat of the Millers Sunday have taken a lead

that will be hard to overcome, and at the rate they are going now should never be headed this half.

"Flame" Debi must be handed the honor when it comes to consistent work in the box, he has won more than three-fourths the games he has been in and at the same time has held the opposition to small scores.

He worked the last four innings against the Smelter in the last Mine-Smelter game and allowed but one hit, that being by B. Callan the first man to face him.

The Miners have added Wallis Smith, an infielder to their club. Smith has recently been with the Minneapolis club of the American Association. He will most likely be used at first base.

Nick Demaggio in his first game since his suspension played fine ball, getting two hits both being at the right time.

Tobin and Mitchell the other two Miner outfielders are not hitting much, which accounts for several defeats the Miners have received of late.

The Millers will lose the most effective pitcher in the league when south paw "Johnny" Lush leaves. Lush has pitched the last three games the Mill have won, and in each contest has pitched brilliantly.

Johnny Bender has started hitting and will be a lot of help to manager Spot McMurdo in his effort to cop the second half of the race.

Hughes with air tight support behind him got away until the ninth inning of the Mill-Smelter game, and then Munsell had to finish for him.

The Millers, judging by past performances, should have the best club in the league, but a number of the men that Manager Arbogast has been depending on to pull his club through have fallen down on the job. Manager Arbogast has signed A. Rankin Johnson, a former big leaguer and more recently a member of the Fort Worth club, of the Texas League. He is a pitcher and is ranked as one of the best men in the Texas League.

### KISSEL KAR RECORD FOR TIRE MILEAGE

Mr. and Mrs. H. J. Talbert of Emmett, Kansas, traveled 3289 miles in their KisselKar this summer without changing a tire.

Mr. Talbert further reports that more than eighteen miles on a gallon of gasoline has been averaged, although much of the trip had been up grade.

The tire and fuel record is the more remarkable in view of the fact that 1000 pounds of baggage is carried.

The Talbert party is on its way to the Pacific coast via Yellowstone Park and Oregon.

Hire a little salesman at The Republican office. A Want Ad. will see more customers than you can.

## Who piled up the tax roll during the first regular session of the State Legislature

?

The friends of Gov. Hunt, or those who fought him at every turn

?

The following is a correct record of the appropriations secured by those who were opposed to Governor Hunt and supported the Mine Tax Bill:

- \$12,500.00 Bridge across the Santa Cruz River, Santa Cruz County.
- 5,000.00 Transfer from General State Funds to the credit of Yavapai County.
- 20,000.00 Bridge across the Apache Indian Reservation.

- 2,500.00 Salary State Librarian
- 60,000.00 To guard prisoners in road camps.
- 200.00 To paint the pictures of SIMS and BROOKS.

\$141,877.20

This is a complete list of all Special Appropriations secured by the friends of Governor Hunt:

## \$10,000 Repairs to Borderland Highway

### PATHETIC SCENES WHEN PARENTS PERMITTED VIEWS OF BABES

Parents of paralysis victims on lawn watching children in windows of isolation hospital.

One of the most pathetic incidents connected with the infantile paralysis scourge transpired when the parents of the babes in the isolation ward of the city hospital were permitted to gather on the lawn while their afflicted youngsters were exhibited to their view at the windows. Some of the youngsters were able to wave a greeting to their parents, and this brought great joy to them.
